

Your online store, built to **sell**.

A complete, custom-built e-commerce store you fully own — designed around your brand, ready to trade, and delivered in about two weeks.

STARTING AT **₹25,000**

~14 days

From kickoff to a live, trading store

100% yours

Source code, database and logins
on handover

2 years

Hosting included in the build price

Everything a real shop needs — on day one.

01

Custom Storefront

A clean, mobile-first store with dark mode — designed around your brand, not a template.

02

Catalog & Search

Categories, filters, and fast search built to scale with your full product range.

03

Secure Checkout

Smooth cart-to-checkout with address capture, coupons, and clear order summaries.

04

Customer Accounts

Sign-up, order history, saved addresses, wishlist, and one-tap reorder.

05

Payment Gateway

Razorpay / UPI, cards & wallets — or UAE gateways with Apple Pay — plus Cash on Delivery.

06

Shipping Integration

Courier integration with live rates, labels, and order tracking across zones.

07

Powerful Admin

Manage products, orders, customers & inventory — with GST / VAT-compliant invoicing and reports.

08

SEO, Analytics & Security

On-page SEO, GA4 & Meta Pixel, plus SSL, Cloudflare CDN, and daily backups.

25

Products loaded at launch

We set up your store with up to 25 products ready to sell — add unlimited more anytime, at no extra cost.

You own everything

Full source code, database, and logins on handover. No lock-in, no licence fees — switch host or developer anytime.

Live in about 2 weeks

A complete, ready-to-trade store delivered in roughly 14 business days.

Modern, proven stack

React + Vite + Express + MySQL — fast, secure, and built to scale, not a heavy off-the-shelf CMS.

Localised for your market

India or the Gulf — the right payment gateways, couriers, currency, and tax handling out of the box.

BUILT ON A MODERN STACK

React

Vite

Express

MySQL

Razorpay

Telr / PayTabs

Apple Pay

Cloudflare

Google Analytics 4

Meta Pixel

HOW IT WORKS

01

Discovery & Design

Kickoff, brand direction, wireframes and high-fidelity mockups for your approval.

02

Build

Storefront, admin dashboard, and your product catalog brought to life.

03

Integrate

Payment gateway, shipping, tax, SEO foundation, and analytics wired in.

04

Launch & Handover

Full QA, training, go-live, and complete handover of code and logins.

STARTING AT

₹25,000

All prices in Indian Rupees

One fixed price for the standard build. Anything beyond it — extra integrations, multi-vendor, or a mobile app — is quoted up front, never billed as a surprise.

- ✓ **2 years of hosting included**
Domain, SSL and CDN configured and live
- ✓ **50% to start, 50% on launch**
The balance falls due only when your store goes live
- ✓ **Domain & gateway set up for you**
We handle the paperwork and the wiring
- ✓ **30-day post-launch support**
Fixes, tweaks and training after you go live

WHAT WE NEED FROM YOU

A

Brand assets

Logo files and any colours, fonts or references you already use.

B

Product details

Your product list with prices, descriptions and photos.

C

Business details

Registration and tax details for invoicing and the payment gateway.

D

Shipping rules

Where you deliver, your rates, and your returns policy.

hello aura

Ready to launch?

Let's build a store that works as hard as you do.
